#### Laughter, the best medicine

Torrential rains soaked South Louisiana and flood waters were six feet high. Mrs Boudreaux was sitting on her roof with her neighbor Mrs Thibodaux, waiting for help to come. Mrs Thibodaux spied a lone baseball cap floating near the house. The cap seemed to be going back and forth slowly but steadly. "Do you see that baseball cap?" she asked Mrs Boudreaux. "Oh yes, that's my husband.'' she replied. 'I told him he was going to cut the grass today come hell or high water."

but, they were not late. The dinner

was scheduled for 6 p.m. but that is Dipsea Net time. Almost everyone was there by 5:30.

Gerry and Dorothy were the first. They did have a good excuse, they were already in the area. The positive side was that we got to eat more chips and salsa than the others. There were some complaints that the salsa was, welltoo piquante. It took many marguerites to cool the burning throats.

For the first time Harry arranged for us to have a buffet and instead of one big table we sat at tables of eight. I regret to have to report that the Wednesday night hamburger group got a little noisy.

The food was excellent and the staff kept the food coming. We even got an unexpected desert.

Our first outing was a fine success. Ollie never looked lovelier. Marilyn got the prize for ordering the biggest marguerite. Jean had something that looked like a milk shake while Harry was drinking a clear liquid.

The following attended: Ollie & friend Beverly, EPE & Miriam, IEE Wally, HCR Gerry & Dorothy, CLI Chauncey & Charlene, DRI Dick & Marilyn, LL Harry, & Jean, ABT Bill & Vivian, CRN Carl & Martha, 7C Carl & Esther,

# Cancer claims Kent Taylor, K7BME.

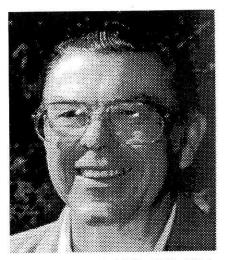

We were very saddened to learn of the passing of our "Big Mouth Engineer" on February 16 of cancer at the age of 75. It was a call from Bob, K7EPE, on President's Day that alerted me to his obituary that appeared in The Oregonian.

A funeral Mass was held on Wednesday, February 21, in St. Aloysius Catholic Church in Estacada.

Kent was an active ham for years He was a Western County Cousins, a member of the Dip Sea Net, and other Ham groups. After his retirement, he enjoyed wood working, carving and painting. He made a significant contribution to our cookie jar at an annual picnic held at Champoeq State Park. Many of his works are in the hands of older Dipsea netters.

At that time his beloved "Jeannie," was quite ill and we thought she might have passed away. He disappeared from our net and we thought she might have passed away.

Kent was born April 25, 1925 in San Diego. He served in the U.S. Army during World War II in Europe and North Africa. He attended Brigham Young University in

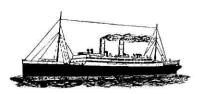

Kent Taylor, K7BME 1925-2001

Provo, Utah. He moved to Portland in 1955, and was an engineer and cameraman for KGW-TV for more than 30 years, retiring in 1986. Kent was also a part-time real estate agent for several years. He moved to Estacada in 19898, and was a member of the Church. In 19045, he married is beloved Virginia "Jeannie" Hellerschmid.

Survivors include his wife; son. Kent Jr.; Burnham; and three sister, Polly grandchildren.

Interment is in Willamette National Cemetery. The family suggests remembrances to the C.C.D. program at his church.

## Why Dogs Are Better Than Kids

 It doesn't take 45 minutes to get a dog ready to go outside in the winter.

Dogs cannot lie.

· Dogs never resist nap time.

You don't need to get extra phone lines

Dogs don't pester you about getting a kid.

· Dogs don't care if the peas have been touched by the mashed potatoes.

- · Average cost of sending a dog to school: \$42 Average cost of sending your kid: \$103,000.
- Dogs are housebroken by the time they are 12 weeks old.

· Your dog is not embarrassed if you sing in public.

· If you dog is a bad seed, your genes cannot be blamed.

## WHEN YOU DRIVE

Sound familiar?

One day while searching online, I found an e-mail address of an old classmate I hadn't seen in 20 years. Although I remembered Tom was very good looking, I also recalled that he did have a very large nose, and I found is address of "SchnauzzMax" rather funny. I sent a message to Tom complimenting him, on his sense of self-depreciating humor.

I was surprised when Tom responded. I was really surprised when he informed me that his e-mail address is named for his dog, Max, a pure bred schnauzer.

My 50-something friend, Nancy and I decided to introduce her mother to the magic of the Internet. Oure first move was to accerss the popular "Ask Jeeves" site, and we told her it could answer any question she had. Nancy's mother was very skeptical until Nanch said, "It's true mom. Think of something to ask it."

As I sat with fingers poised over the keyboard, Nancy's mom thought a minute, then responded, "How is Aunt Helen feeling?"

# Wally Aufferman, KD7IEE

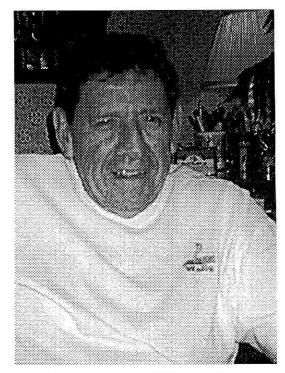

Dateline: Flushing, Long Island, New York - 21 October 1926 You guessed it - this town rejoiceed at the arrival of one KD7IEE.

This bright event took place in Flushing Hospital, delighting my folks no end (I hope).

Oh, well!! Whatever. Anyhow, went thru parochial school and about three years of high school before I started bugging my folks to let me join the Navy. Being only 17 I needed parents consent. Finally got it and on one evening in May 1944 I saw my Dad cry for the first time - this as he put his little (6'2") "Sonny Boy" on the troop train headed for boot camp up in Sampson, N.Y.

Boot camp then was a quick indoctrination into naval terminology - port & starboard fore and aft - topside & below decks - nice descriptions of food - and of course the Quite a four week tour for a 17 year old who'd never been away from home! After boot camp I went thru signalman school (visual communications) and then assigned to a radar picket destroyer - USS Henry W.Tucker. Put her into commission at Port Orange, Texas went on a shakedown cruise to Guantanamo Bay, Cuba and from there over into Japanese waters. Spent the next several months cruising the Rykuyus group of Japanese Islands checking the troop ships bringing home their "warriors". After that, home to San Diego and discharge in may of 1946. Fortunately for me I guess, had no part in any hostilities.

After being discharged from active duty I stayed in the reserves, got a job with PanAm airlines for a year, then worked for the International Paper Company in New York. I couldn't hack civilian life so in May 1948 I reenlisted in the Navy and put in a total of twenty two years retiring in May of 1967. I spent time on aircraft carriers (USS Philippine Sea and USS Wasp - (two years each) and on

another destroyer, the USS Ault. These ships took me to the Arctic Circle and the Mediterranean. My last tour was on a destroyer escort, the USS Peterson. On the Pete I made a Deep Freeze cruise down to the Antarctic and in '62, we were one of the first ships on station for the Cuban blockade. In '63 got transferred to Colorado Springs, Colorado and spent my last three years recruiting for the Navy. I guess of the 22 years in the service about 17 years were spent on sea duty.

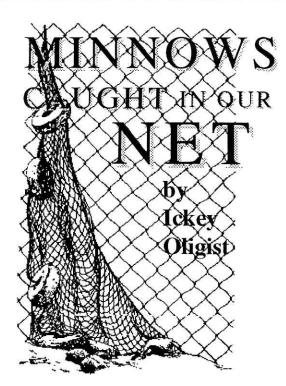

The biggest tragedy in my life was losing Polly, my wife of some 30 years. Lost her to a heart attack in 1986 and can"t say my life has ever returned to normal.

My neighbor got me into ham radio in 1969. Didn't bother with it again until the late 90's when this "nut" comes up to my house and tells me that my garage door opener is messing up his ham radio operations. This "nut" as you may guess, turned out to be W7TMI. Got my license again, joined the Dipsea net and am still enjoying all this and especially meeting more and more of the Dipsea netters.

Good news first. Paul Walden, W7EQI, is making slow and steady progress recovering from a severe gout attack at the Providence Brookside Manor. He has discarded his walker and cane and is walking unaided, but can't return home until he is completely clear of the gout. He probably won't return home before March. He says he is lonely guys, so get on the horn and give him a call at 541-386-3310.

Vivian was in the process of cooking dinner that evening when suddenly the power went off. Bill and Viv moved their operations to their travel trailer which is fully equipped and self contained. Bill busied himself building a fire in the fireplace, It was then they discovered tree limbs sticking throgh the ceiling in their bedroom and the bath.

After a fitful sleep, the next morning, revealed the top third of a fir tree broke off during the wind storm and fell across the ridge of their home, breaking in half. It also tore down Bill's antenna knocking him off the air for several days.

Bill rigged a temporary antenna up and operated from the trailer. He also decided to heck with it all and went snowmobiling. Talk

# Carol's Greek/Turkey Adventure

The incredible beauty of the Greek island. This is Thira, Santorini.

After 16 hours flying time from Portland and snoozing away as we flew over the Atlantic, most of Europe, I arrived to a sunny Athens, Greece, The airport seemed very small in comparison with other European international airports. Athens is such a crowded city, "3 million people and 2 million cars, Tour guides joke, that I can't imagine the congestion when hordes of people arrive for the Olympics.

My first view of the Acropolis was awesome, even in my sleepy, disheveled state! Because I had only 2 days in Athens I wanted to see as much as I could and signed up for the Greek dinner/folk entertainment evening and an all-day tour of Delphi. The bus driver delivered us to the ship docked at Pireaus after the tour. The Greek dinner was held at a restaurant, about an hour's bus ride from the hotel. We were met with generous glasses of Ouzo and sausages on sticks to cook over charcoal grills. The weather was about 70 degrees, flowers were blooming, Greek music was wafting through the air, and the Ouzo made us all very convivial. There was abundant, well-cooked, fresh food and all the water and wine we wanted. We had to get up by 7am for the city tour included in the price. I usually travel with a good smelling candle to take away stale smoke in lots of European hotel rooms so I lit the candle, turned the radio to Greek music, and drifted off to "sleep fast."

The highlight of the day was the city tour of the Acropolis. I was struck that I was finally here at this imposing, impressive, historic

Our Carol poses at Oia, Santorini

edifice which served as Athena's home while she watched over the city of Athens. The weather was perfect. The marble stairs were uneven and slippery walking. On top, the view looking over the edge of ancient Agora, the theatre of Dionysos, the Plaka, and the heart of current Athens was inspiring. The rest of the city tour was an afterthought to me.

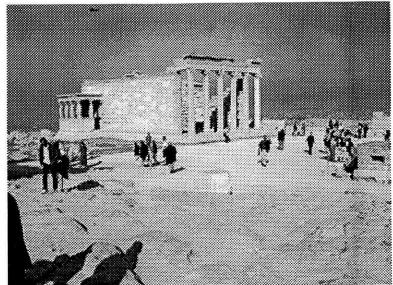

I was up very early for the Delphi tour. Delphi is in the mountains near the Bay of Corinth. Very impressive ruins of Apollo temples and a good museum with many artifacts. The ancient Greeks believed that Delphi was the center of the earth and I loved walking along the sacred Way imagining the high priestess emerging from her sanctuary to pronounce her prophetic, often ambiguous, mutterings.

We didn't arrive at the ship until almost 6pm. Getting on board and finding my cabin was quite confusing. After the mandatory boat drill, dinner was served. (Nobody goes hungry on a cruise!) My dining companions were 4 English people..a couple who were on their 59th cruise! and 2 women traveling together.

First morning on board, I was up early, and went ashore to the very small island of Delos, a waterless atoll that was the religious and

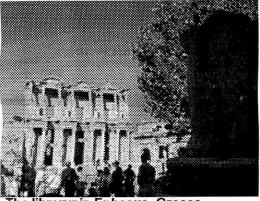

commercial center of the Aegean for 1,000 years. The ship went on to dock at Mykonos. There was a small beach and a good-sized

harbor.

The next morning we arrived at a spectacular island, Santorini. I took the Lost City of Atlantis & Oia Village tour on Santorini.

We ended our tour in Thera where the Ochi Day celebration was taking place.

The next to last morning on board I had breakfas looking out on the magnificent harbor of Rhodes. (Island of Roses) It is part of the Dodecanese island group, located close to the Turkish coast. We went to the Acropolis of Rhodes where we could see Asia Minor across the water.

My last day aboard ship, we arrived early at Kusadasi, Turkey. for a tour of Ephesus. including the 24,000 seat stadium where St. Paul preached. We learned how Turkish rugs were made. I did buy some packets of spices.

On Tuesday, Oct. 31, buses took us on a six-hour tour of Istanbul. We visited the Blue Mosque which is so named for the 21,000 blue-green Iznik tiles which decorate its

# FIRST CLASS

#### Amateur Radio Station

Carl J. Henniger, KA7GHR 3150 SW 108th Beaverton, OR 97005-1869 ka7ghr@aol.com

#### THE BAIT BOX

The cost of the Bait Box (Printing & postage) comes out of the "Cookie Jar." Those funds are raised mainly at our annual picnic. If you arer a regular check-in to the net you will receive the Bait Box. For those who can't or attend our outings, we suggest a donation of \$5.00 annually. All funds are handled by Harry, KD7LL and should be made out to The Dipsea Net and mailed to him.

### Hope to see you all at the next Dipsea Net Adventure
